15 June 2020,

To whom it may concern,

We hereby confirm that KENT AIR CO ONE SHOT (reference 86436) has been evaluated in accordance with the requirements of standard EN 14476: 2013 + A2: 2019 in clean conditions by the laboratory "Eurovir Hygiene-Labor GmbH", Luckenwalde Germany.

The strain used is: Modified Vaccinia Virus Ankara (MVA)

The concentration and exposure time required to inactivate the virus is:

Undiluted product, 30 seconds at 20 °C (room temperature)

After evaluation with the "Modified Vaccinia Virus Ankara", the KENT AIR CO ONE SHOT (references 86436) was declared to have "virucidal activity against enveloped viruses" according to EN 14476: 2013 + A2: 2019.

The declaration "virucidal activity against enveloped viruses" covers all enveloped viruses such as: HBV, HCV, HIV, and the members of the families Orthomyxoviridae (Human Influenza Viruses), Coronaviridae (including MERS-COV, SARS-COV -1, SARS-COV-2), Filoviridae (including Ebola virus) and others.
